Dear D'Maris and Roberto,

Thanks for this D'Maris. I have had a first look at the game. It looks very interesting and is great as a teaching tool. I do need to go over it a few more times before I fully understand it and can have a sense of how to structure the sessions.

Very nice to meet you online Roberto. Shall we meet for a chat before the session. Where are you based right now? I am right now commuting from Cambridge, so we could meet either at UCL or in Cambridge.

Best wishes,
Kumar
